

HPCO Standards Pricing Strategy
Effective September 1, 2020

The HPCO Hospice Standards have been developed and revised in consultation with member hospices and, wherever possible, they are based on evidence from the literature. Every attempt is made to ensure that these standards also align with governing legislation, national models of care such as the CHPCA Norms of Practice and other provincial documents such as the HQO Quality Standard for Palliative Care.

Hospice standards set the minimum required expectations that differentiate the operations, work, and philosophy of hospice-based services from other health and/or community support services. They promote quality and consistency in hospices across the province. The Standards have been developed specifically for Ontario hospices and form the basis of HPCO’s Accreditation Program.

A portion of the price of the Standards will be deducted from the Registration Fee for those who register for HPCO Accreditation within the same fiscal year as the purchase of the Standards. The Fee Schedule may change between registration and application deadline. PLEASE NOTE: All fees are subject to HST.

Category of Purchaser	Description	In-Home Hospice, Visiting (includes OO & VM)	Hospice Residence (includes OO & VM)	Both In-Home & Residence (includes OO & VM)	Per additional service (GB, SC, DH, CT)	All modules
