

HPCO Standards Pricing Strategy
Effective September 1, 2020

The HPCO Hospice Standards have been developed and revised in consultation with member hospices and, wherever possible, they are based on evidence from the literature. Every attempt is made to ensure that these standards also align with governing legislation, national models of care such as the CHPCA Norms of Practice and other provincial documents such as the HQO Quality Standard for Palliative Care.

Hospice standards set the minimum required expectations that differentiate the operations, work, and philosophy of hospice-based services from other health and/or community support services. They promote quality and consistency in hospices across the province. The Standards have been developed specifically for Ontario hospices and form the basis of HPCO’s Accreditation Program.

| Category of Purchaser | Description | In-Home Hospice, Visiting (includes OO & VM) | Hospice Residence (includes OO & VM) | Both In-Home & Residence (includes OO & VM) | Per additional service (GB, SC, DH, CT) | All modules |
|----------------------------------|---|--|--------------------------------------|---|---|-------------|
| HPCO Member Organizations | Must be an operational hospice or in the planning/build phase | \$150 + HST | \$150 + HST | \$200 + HST | \$50 +HST | \$300 + HST |

All fees are subject to HST.

Accreditation Program Rebate: An Accreditation Program rebate is applied to the Registration Fee when a hospice registers for Accreditation within one year of purchasing the Standards. This rebate is equal to 50% of the purchase price of the Standards. The Fee Schedule may change between registration and application deadline.
